PROFILE

I am an immediate joiner with 2+ years of experience as a frontend developer and a master's degree in **Computer Science & Engineering from IIT Roorkee**. I possess a strong command of front-end technologies and a versatile skill set in programming languages,Libraries, frameworks, and databases. With an unwavering dedication to innovation and a knack for overcoming challenges, I bring substantial value to companies by crafting user-friendly interfaces and spearheading successful projects.

TECHNICAL SKILLS

Languages: C, C++, JavaScript, ReactJs, NextJs, HTML, CSS, SCSS, Tailwind CSS
Database/Cloud Services: MySQL, Firebase, Amazon Web Services
Developer Tools: Microsoft Visual Studio, Git, GitHub, JIRA, Confluence
Project Management: Agile, Waterfall, Scrum

EDUCATION

Indian Institute of Technology, Roorkee   08 2021 – 06 2023
*M.Tech - Computer Science and Engineering - **CGPA** - **8.05***   *Roorkee, India*

Dr. A P J Abdul Kalam Technical University, Lucknow   06 2016 – 05 2020
*B.Tech - Computer Science and Engineering - **CGPA** - **8.20***   *Lucknow, India*

WORK EXPERIENCE

KreditBee ⤤   06 2023 – 06 2024
Software Engineer   *Bengaluru, India*

- Efficiently integrated backend and third-party **RestAPIs** for streamlined exchange of data.
- Implemented intuitive navigation and routing for seamless page transitions. Ensured rigorous form validation and error handling to maintain data accuracy.
- Build interactive UI components for a seamless user experience, resulting in a **30%** reduction in system errors and improving application performance by **25%.**
- Collaborated with the design team to ensure the page adheres to the provided UI/UX guidelines

Freelancing   05 2020 – 08 2021
FrontEnd Developer   *Remote, India*

- As a developer, I have worked on an e-commerce platform by building key features such as: **Product Listing and Search:** Developed intuitive components for showcasing and filtering products by category, price, and other relevant attributes. Implemented a robust search function enabling users to quickly locate specific items. **Shopping Cart and Wishlist:** Leveraged Redux for state management to create a seamless shopping cart and wishlist experience.

PROJECTS

MobyG ⤤ | Javascript, ReactJS, Redux, HTML, SCSS, TMDB Database REST APIs   **2023 - present**

- It's built using React.js library, leveraging The Movie Database (TMDB) REST APIs to provide a comprehensive trailer browsing experience. Implemented features include: **Search:** Robust search functionality based on Movie and TV show name. **Filtering:** Advanced filtering options by genres, popularity, rating, and release date. **Trailer Playback:** Used react-player/YouTube for seamless trailer playing. **Responsive Design:** Optimized for desktop, tablet, and mobile devices.
- Live site here

WalkTheWalk ⤤ | Javascript, NextJS, Redux, Strapi, HTML, Tailwind CSS, PostgreSQL   **2024 - present**

- It's built on the lightning-fast Next.js framework and Redux for state management, which allows browsing shoe collection effortlessly. Created backend of this project using Strapi, an open-source headless CMS, which provides a flexible and customizable API for managing content, allowing to easily create, update, and deliver content to the frontend.

ACHIEVEMENT

Graduate Aptitude Test in Engineering   2020
*Secured ALL INDIA RANK **652***   *India*
